

FoodDocs vs FoodReady

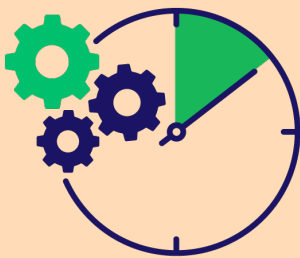

Key features	FoodDocs	FoodReady
EASE OF USE	<p>Intuitive app and desktop solution, making it easy to navigate for all users, from teams to management.</p> <p>Users consistently highlight ease of use and simplicity in customer reviews.</p>	<p>Not as user-friendly, especially the desktop version.</p> <p>The workflow involves multiple clicks and steps, which causes inefficiencies and slower task completion.</p>
SETUP & ONBOARDING	<p>Offers a wide range of monitoring task templates to simplify the setup process.</p> <p>Modular design allows users to choose and use features independently, providing flexibility in how the system is adopted.</p>	<p>Manual setup is required, increasing time due to missing pre-set configurations.</p> <p>Certain modules, such as recipe management, supplier management, and traceability, cannot be used independently, contributing to a longer and more complex setup process</p>
CUSTOMIZABILITY	All tasks are fully customizable to meet the chosen food safety standards.	Customizability is possible, but building everything from scratch makes complex setups time-consuming
HACCP PLAN	<p>The setup process is fast and straightforward, thanks to pre-filled fields.</p> <p>HACCP content is fully customizable for your company’s specifics.</p>	<p>The setup process is time-consuming due to required manual input</p> <p>The setup and customization are difficult to understand due to varying interface views.</p>
MONITORING	<p>An all-in-one monitoring solution accessible from all devices</p> <p>The mobile app includes educational instructions to help train the team effectively.</p> <p>The smart app automatically fills in monitoring checks based on previously entered data.</p>	<p>Monitoring cannot be performed on a computer desktop, limiting functionality to mobile devices.</p> <p>Includes dedicated supplier management feature</p> <p>There is no pre-fill option; all data must be entered from scratch, which can be time-consuming.</p>
TRACEABILITY AND RECALL MANAGEMENT	<p>All-in-one traceability solution simplifies the process, enabling logs to be completed quickly and efficiently.</p> <p>Everything you need is available in a single view, making the process intuitive and easy to navigate.</p>	<p>Traceability is thorough but can be cumbersome and time-consuming due to numerous clicks and manual steps</p> <p>Completing traceability logs requires multiple clicks, making the process less efficient.</p>
TEMPLATES & EDUCATIONAL RESOURCES	200+ free templates available for managing your company’s food safety.	Limited templates are available inside the software.
DATA & OVERVIEW	<p>Monitoring logbook enables easily track all the details about the task completion, including results, assignee, and completion time.</p> <p>You can export data as CSV or XLS, selecting the log, date range, and format for easy analysis.</p>	<p>Log history is complicated because you can view only one log at a time. This makes analysis complicated.</p> <p>All the data including monitoring records is on pdf and cannot be analyzed.</p>
TEAM MANAGEMENT	<p>Monitoring tasks can be set up by roles, rooms, or equipment, improving team efficiency in completion</p> <p>Smart notifications allow tracking the validity of team certificates and training documents.</p>	Monitoring tasks can only be set up by roles, limiting flexibility in task assignment.
RECIPE MANAGEMENT	Includes allergen management, including automatically created allergen matrix	<p>Does not include allergen management features, such as an allergen chart.</p> <p>Recipe management depends on the HACCP Plan and Supplier Management modules and cannot function independently.</p>
INTEGRATION WITH SENSORS	✔	✔
WEB & MOBILE ACCESSIBILITY	iOS Android Web	iOS Android Web – is limited to setup only, with no task or log entry functions.
FREE TRIAL AVAILABILITY	✔ (14 days)	✔ (14 days)
PRICING	<p>Starts at 165\$/month for up to 5 users.</p> <p>Tailor-made pricing is available for larger teams upon request.</p>	Pricing details are available only upon request.
ONBOARDING	<p>Full 45-day support with your own dedicated support manager.</p> <p>Price starts with 999\$ one-time fee.</p>	Onboarding pricing and process details are available only upon request.
CUSTOMER SUPPORT & HELP	<p>Top-notch customer support with a satisfaction rate of 98% from our NPS survey.</p> <p>A comprehensive Knowledge Base with educational instructions and resources.</p>	Customer support details and availability are provided only upon request
CUSTOMER FEEDBACK & REVIEWS	4.8+ customer feedback score on all major review sites, including Capterra, SourceForge, and G2	Very limited customer feedback information is available.

Why prefer FoodDocs?

User-friendly interface

FoodDocs offers a user-friendly app and desktop, enabling quicker tasks, while FoodReady’s complex interface may slow down completion

Fast and flexible setup

FoodDocs offers quick setup with user-friendly templates, while FoodReady’s setup and onboarding is slower and lacks pre-set configurations

Comprehensive data tracking and analysis

FoodDocs enables a detailed data tracking, while FoodReady’s single-log PDF format limits analysis and complicates navigation

“ FoodDocs intuitive, convenient, and easy-to-use system helps us to maintain the company’s food safety regulations. With FoodDocs’, Gruppo Terroni management now has an easy-to-use system to help ensure food safety compliance and protect our guests from food safety issues. ”

Michael Worbanski
Human Resources and Operations Safety Specialist
Gruppo Terroni
